

VALVE SUPERSOURCE

*The Valve Selection You Demand, With
The Expert Guidance You Can Trust*

CONTROL VALVES

Ranger QCT rotary eccentric plug, globe, angle globe, 3-way globe, Y-pattern globe. Regulators - pressure reducing and back pressure valves

Threaded brass and stainless, 2 & 3-piece, full, reduced, and multi-port, V-port control, media containment, and high-purity

High performance CS body, SST body, soft seats, metal seats, Firesafe, and triple offset

Globe, angle, 3-way, steam jacketed, Y-body, high performance butterfly, V-port ball, and eccentric plug

Globe, angle, isolation and three-way body configurations, metal and resilient seated, general service, and severe service

Hi-flow control, self-acting temperature, globe control, and angle seat

KTM V-port ball and rotary control

BUTTERFLY VALVES

Resilient seated, Teflon lined, 2-48", CI and DI body

High performance CS body, SST body, soft & metal seated, Firesafe, and triple offset

Sanitary butterfly, and stainless steel tri-clamp

ACRIS, Teflon lined butterfly HVAC service, high performance - soft & metal seated, Firesafe

General service, resilient seated, Teflon lined HVAC service, high performance soft & metal seated, Firesafe

ACRIS, Teflon lined butterfly

BALL VALVES

Threaded brass and stainless, 2 & 3-piece, full, reduced and multi-port, V-port control, and flanged

Industrial: threaded brass and stainless, full, reduced, and multi-port, V-port control, threaded brass and stainless, 2 & 3-piece. Sanitary: tri-clamp

Stainless, 2-piece, 3-piece, full port, and flanged

Threaded brass and stainless, 2 & 3-piece, full, reduced and multi-port, media containment, and high-purity

Threaded bronze and stainless, 2 & 3-piece, full and reduced port

Amresist, line ball

Lined ball

Stainless steel, ductile iron, gear, high-cycle, spring-return, double & fast acting actuators rack & pinion

Electric, on/off, modulating, quarter turn, and linear actuators

Double-acting and spring-return rack & pinion; electric quarter-turn

Double-acting spring-return rack & pinion; Crane Matryx vane-style pneumatic electric quarter-turn

Pneumatic, electro-pneumatic, and smart positioners

Smart/Intelligent valve positioners

Pneumatic, electro-pneumatic, and smart positioners; explosion proof

Proximity & limit switches, positioners, position transmitters, networking devices and solutions

Proximity switches and networking solutions

Position, transmitters, positioners, limit switches, and networking devices

3-way and 4-way solenoids

3-way and 4-way solenoids

Electric, on/off, modulating, quarter turn, and linear actuators

KNIFE GATE

General service, cast stainless, bi-directional, through conduit, square ported, double gate, rubber sleeve, hopper shape, split body, split body bi-directional, swing knife gate, single wedge, fabricated single wedge, bonneted, o-port, and level sensor isolation valves

SANITARY

Ball, butterfly, check, plug, relief, compression, sampling, mix-proof, flow diverting, stem flush, and single seat valves

Sanitary valves: multi-port ball, flush-type ball, jacketed ball, transfer diaphragm, aseptic ball, and CIP valves

Sanitary ball and butterfly valves

Regulators: pressure reducing, sanitary, gaseous, cryogenic, pilot operated, back pressure/relief differential, and thermal trip valves

Ball, butterfly, bronze, cast steel, and iron valves

Ball, check, corrosion resistant gate and globe valves

High performance wafer check valves

Gate, globe, and check valves

Gate, globe, and check valves

Plug and lined valves

Ceramic ball and V-port ball valve

Concentric and lined plug valves

Tank blanketing valves

Diaphragm valves

WATER / WASTEWATER

Plug, AWWA butterfly, and check valves; general service

Check valves, outside weight and lever, air/oil cushioned

Air/vacuum, butterfly, check, control, and gate valves; back flow preventers

Knife gate, slide gate, sluice gate, and check valves

High performance automatic air release and vacuum break valves

Threaded brass and stainless, 2 & 3-piece, V-port control, full, reduced, and multi-port; media containment, threaded, and flanged valves

Pressure reducing, flow control, and surge anticipating valves

Cast Steel

General service butterfly, high performance butterfly, UL listed, globe, iron, bronze, and carbon steel body gate, SST gate, UL listed, ball & check, double-plate, and uni-check valves
