

IT'S TIME TO THINK ABOUT **VALVES** IN A NEW WAY.

Introducing Milliken Valves from Crane Engineering
for Water and Wastewater Treatment.

Nationally Accepted Milliken's Plug, AWWA Butterfly and CCNE Check valves are widely specified and accepted in Water and Wastewater plants throughout the country.

Lower Energy Costs Milliken has higher CV's and flowrates than many other brands which reduces energy needs.

Competitive Pricing Early success show our pricing is competitive with the market leader.

Crane Engineering Advantage As always, with Crane you get Total System Accountability, which means we understand your complete system and make sure everything is optimized together. You also get an authorized service partner to automate and enhance your operation.

It's time for a smarter valve choice: Milliken Valves + Crane Engineering
