

# CRANE ENGINEERING IS YOUR RESOURCE FOR PUMPS, VALVES, FILTERS AND MIXERS

## Standard Valves

### Knife Gates

- Lug Style
- 2" - 36" & Larger (3" - 12" Stock)
- Metal or Resilient Seats & Bidirectional
- Stainless Steel, 304 or 316

### Gate, Globe and Check Valves

- ANSI Flanged, Threaded, Socket Weld, Butt Weld
- Cast Steel 2" - 24" (2" - 8" Stock)
- Stainless Steel 2" - 24" (2" - 8" Stock)
- Forged 1/2" - 24" (1/2" - 2" Stock)
- Wafer Check - Dual Disc/Single Discs
- Flanged/Threaded Swing Checks
- Flapper Checks
- Piston Checks

### Ball Valves

- Threaded, Socket Weld, Flanged, Butt Weld, Tri-Clamp (Sanitary)
- 1/4" - 12" & Larger (1/4" - 8" Stock)
- 2 Piece or 3 Piece Body
- Stainless Steel or Carbon Steel
  - Soft Seats or Metal

### Butterfly Valves

- 2" - 36" & Large (2" - 12" Stock)
  - Lugged, Wafer, Tri-Clamp (Sanitary)
- Resilient Seated
- High Performance

### Automation

- Linear Actuators
- Pneumatic Actuators - DA & SR
- Electric Actuators - On/Off, Modulating and Fail Safe
- Positioners - Pneumatic, Electro-Pneumatic, Smart
- Limit Switches
- Solenoids
- Manual Gears
- Hand Levers
- Customized Mounting
- NEMA 4/NEMA 7 EXP

# Pumps, Mixers, Filters, Instrumentation

## PUMPS

Centrifugal pumps for food, hot oil, and solids handling applications, vertical turbines

Drum and container Pumps

Air-operated diaphragm pumps, piston pumps, drum unloaders

Sanitary centrifugal pumps

Peristaltic (hose) pumps

In-line vertical multistage and digital dosing pumps

Metering pumps

End suction centrifugal pumps

Corrosion resistant, drum, and magnetic drive pumps

High pressure piston, centrifugal, and plunger pumps

Twin screw, vacuum, and slurry pumps

## MIXERS

Top and side entry mixers

Top and side entry mixers

## FILTERS

Thompson strainers, Turbo-disc self-cleaning depth media, and Ultra-Pure membrane filters

Replacement filter bags

In-line filters and strainers, cleaning systems

## Skidded Systems

We've built hundreds of successful skid systems for the municipal, food and beverage, chemical, industrial, paper and tissue markets.

No matter your industry, we can develop a solution that meets your needs.

See us for systems such as:

- Chemical feed
- Metering
- Blending/Mixing
- High pressure cleaning
- Raw material handling
- Circulation
- Fluid transfer
- Starch cooking
- Polymer makedown
- Solids/liquid makedown
- Filtration
