

Process Equipment | Service & Repair | Installation | Skid Systems | Valve Automation & Design

## PUMPS

Self-priming, submersible, and engine-driven pumps. Packaged water and wastewater pumping stations

Horizontal split case, vertical turbine, axial flow, and end suction centrifugal pumps

Wastewater pumps, replacement parts/pumps: Fairbanks, Allis Chalmers and Aurora

Grinder pumps, packaged grinder pump systems, and vertical multi-stage pumps

## VALVES

Check valves (swing and ball). Plug valves, gate valves and butterfly valves

Pressure sensor rings, duckbill check valves and pinch valves

Knifegate valves, slide gates, weir gates and sluice gates

Thermoplastic valves and accessories

## SEALING SOLUTIONS

Mechanical seals, packing and couplings

## PROCESS EQUIPMENT

Headworks equipment: screening, washer compactor and grit systems

Dissolved air flotation (DAF), Air dissolving tube (ADT) and sand filters

Rectangular clarifiers chain, scrapers sprackets and wear strips

Positive displacement blowers and packaged systems

## SLUDGE HANDLING AND TREATMENT

Dissolved air flotation (DAF) thickeners and air dissolving tube (ADT)

Gravity belt thickeners belt presses and conveyors

## SERVICES, INSTALLATION, & REPAIR

- Pump maintenance and repair
- Lift station upgrades
- Vertical turbine repair
- Valve and piping upgrades
- Clarifier rehab
- Screw pump rehab/upgrade
- Blower repair
- Field service
- Belt press rebuild
- Laser alignment
- Vibration analysis
- Flooring, coatings, tank linings

## INSTRUMENTATION & CONTROLS

OptiFlow packaged pump systems from Crane Engineering, UL listed control, and SCADA systems

## CHEMICAL FEED

Chlorine gas disinfection, leak detectors, scales and dechlorinating equipment

Corrosion resistant drum, sealess magnetic drive and horizontal centrifugal pumps

Chemical feed skids, pump skids, instrumentation and controls

## WATER TREATMENT

Sandflote and packaged treatment systems

## TANKS

Fiberglass tanks

Polyethylene tanks and containment vessels
